1982

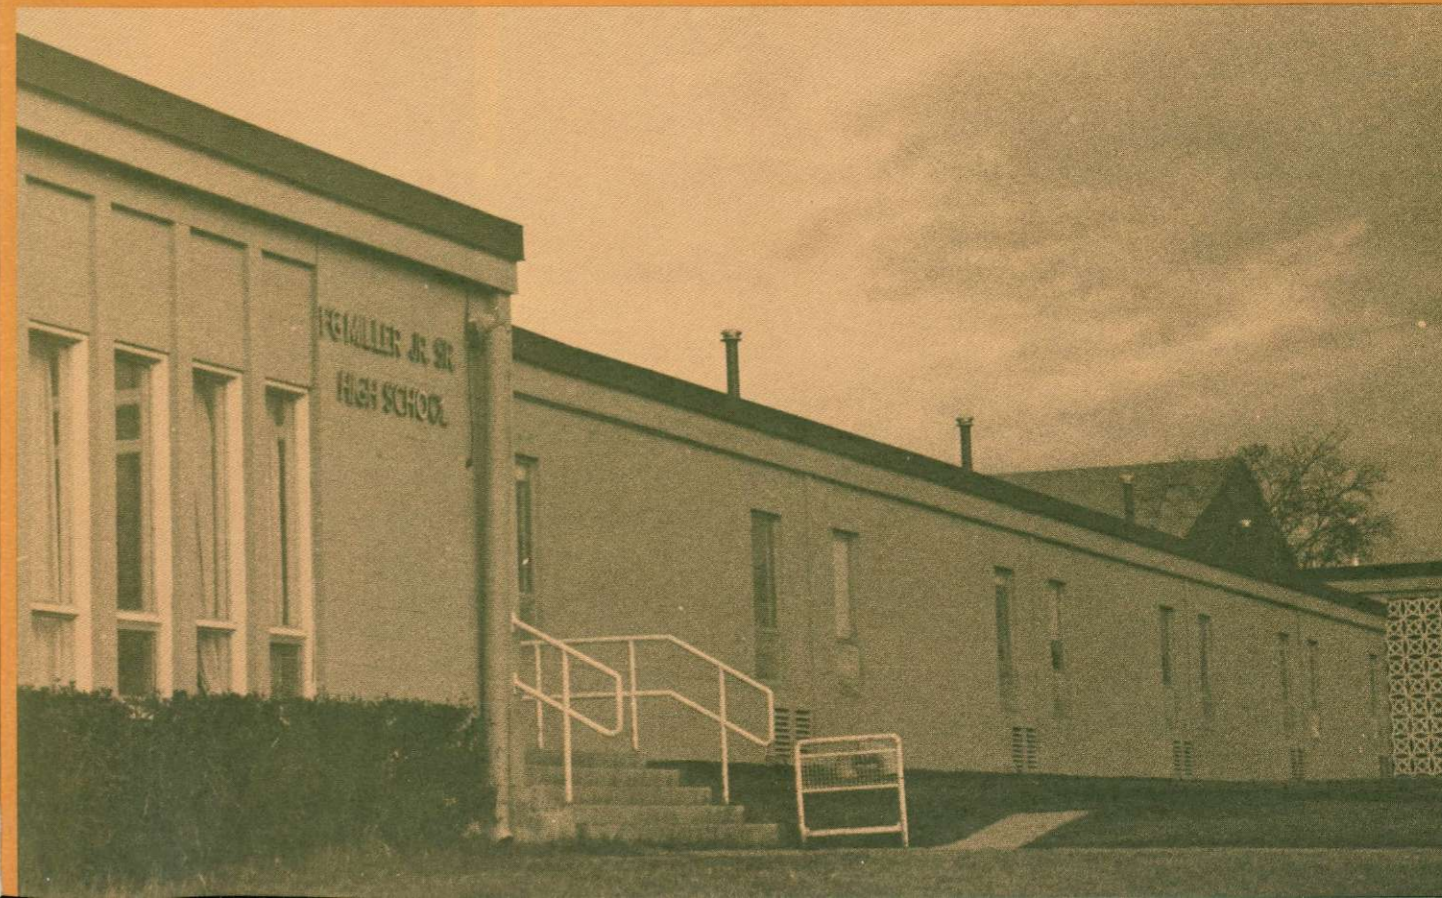

That was then ...

WAPITI 1982

This is now ...

DEDICATION

We, the students of the F. G. Miller Jr/Sr High School were badly in need of more space in which to continue learning in a comfortable atmosphere. We feel that the expansion of the school will create a more effective and efficient climate for work. To help out our Business Education classes, a fairly large room was built and furnished to house typewriters and some business machines. Two other rooms, now occupied by English and Social Studies/History students was also a welcome addition. Also, a cafeteria was constructed so that the students would not clutter up the classrooms with their lunches. The Special Education students will be preparing hot food for those who do not bring lunches to school, or would like to supplement their diets. This contribution to our education is greatly appreciated, and our sincere thanks go out to the St. Paul County, and all those who made this new wing possible.

The Yearbook Staff &
F. G. M. H. S. S. U.

EDITOR'S MESSAGE

From Grades One through Twelve, priceless memories are collected and treasured. Memories of your first day of school, leaving the elementary and being terrified of entering Junior High, initiation, first loves, and finally graduation, linger. Also, the laughs and tears that accompany school life remain in ones experience.

We have tried to design this yearbook in such a way that the memories of Junior and Senior High School come forth in the best ways possible.

Last year we introduced spot color to our yearbook, and again, we feel that it will add to the format, and help bring out school life as it was.

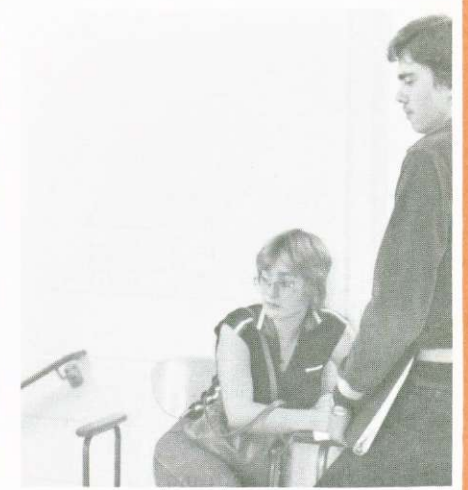

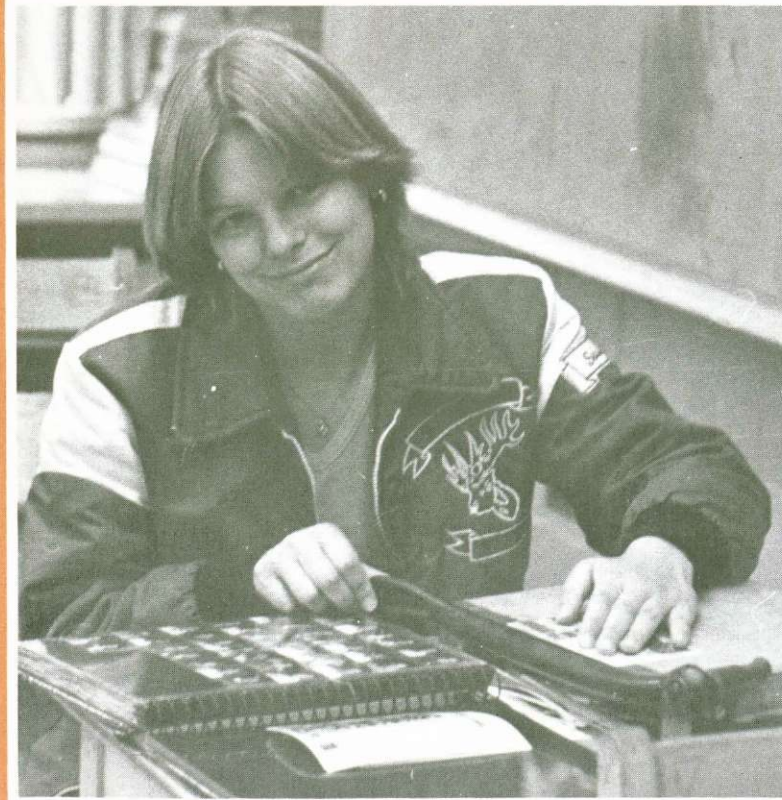

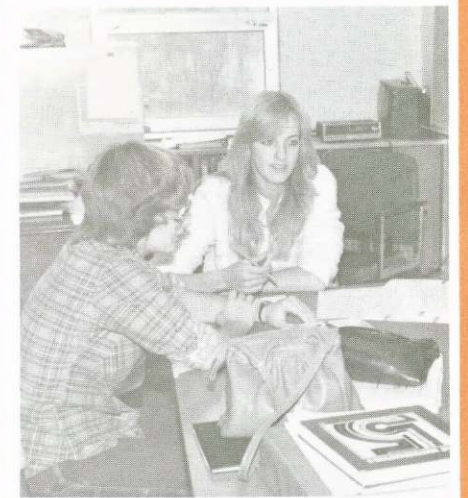

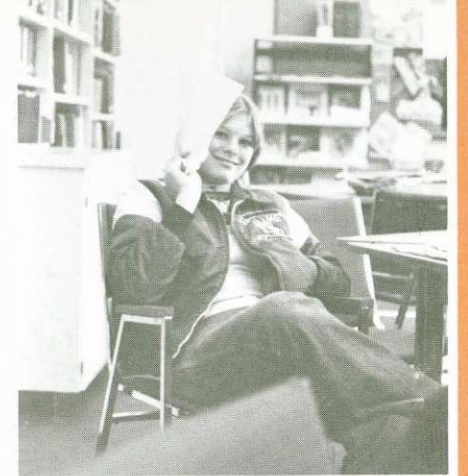

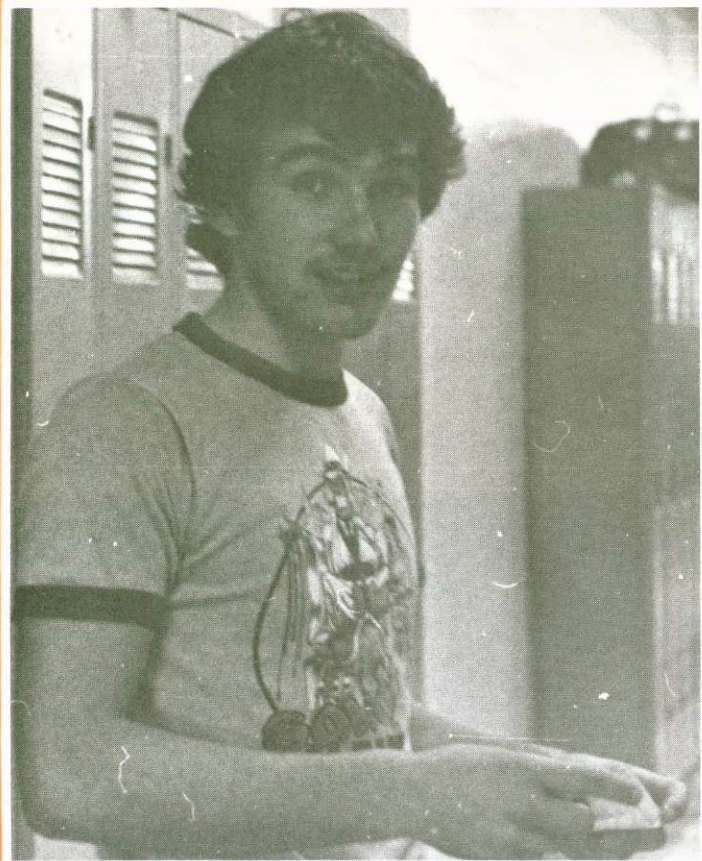

I would like to thank the following people; Mark Hellquist and Trish Mayner (co-editor) for their time put into photography, Susan Kadutski (co-editor) for her ideas and help, and to our yearbook Advisor and photographer, Mr. Lawrence Pidluzny for his encouragement and time. Thank you all.

Denise Smereka

Denise Smereka, Editor
Wapiti 1981-82

YEARBOOK STAFF

I would like to take this opportunity to congratulate Mr. Pidluzny and the yearbook staff for a very fine yearbook. Without your effort and determination, a yearbook of this quality would not be possible.

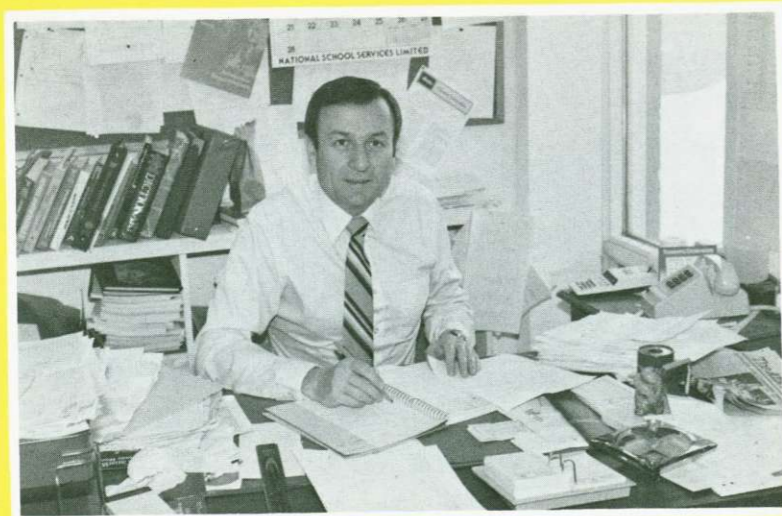

Of course, to make their job much more pleasant and even possible, they had to receive the cooperation of the entire staff and student body. Through the media of this book, a sincere thanks to the total school population.

In looking at last year's yearbook, I had made mention of the new addition. Finally it is here for which we are very grateful. It is indeed something that we should all be proud of.

With the new wing now in operation, the character of our school will change. It is my sincere wish that we continue to grow and improve, and I am sure we will.

Again, thank you to all of you for a very rewarding and worthwhile year.

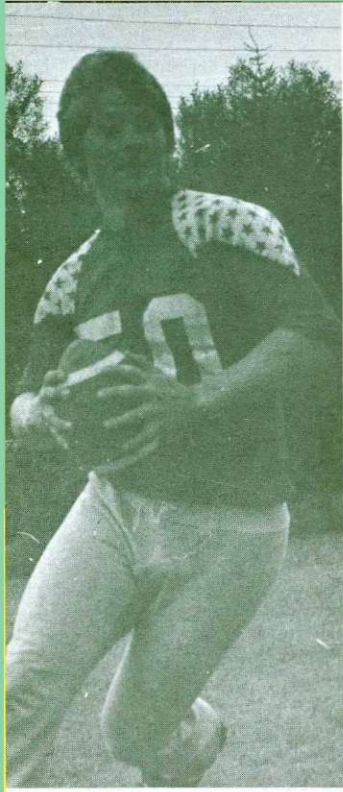

P. Pidluzny

AUTUMN

TOUCHDOWN !!

...and this is what you call an ant hill...

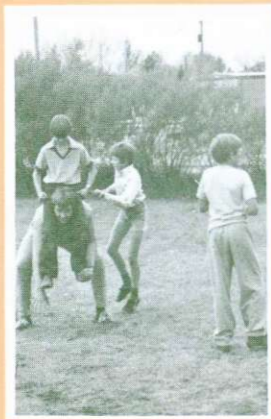

Duck or die!

Dreamer, nothing but a dreamer...

September and October are traditional football months, and it was no different at F. G. Miller this year. With the direction of Mr. Easthope, and Mr. Forrest, a touch football league was founded and proved a popular success. After a few practices to get used to the rules, four teams were formed, and a round-robin schedule drawn up. Following a number of weeks of fun and exciting play, the team led by Mark Hellquist and Ron Lesyk were declared champions, receiving a championship trophy in the form of a chocolate cake donated by Mrs. Easthope. Since the first year was such a success, look for even bigger and better things in 1982.

Hut! hut!

Overall winner.

CROSS-COUNTRY 81 NOTEBOOK

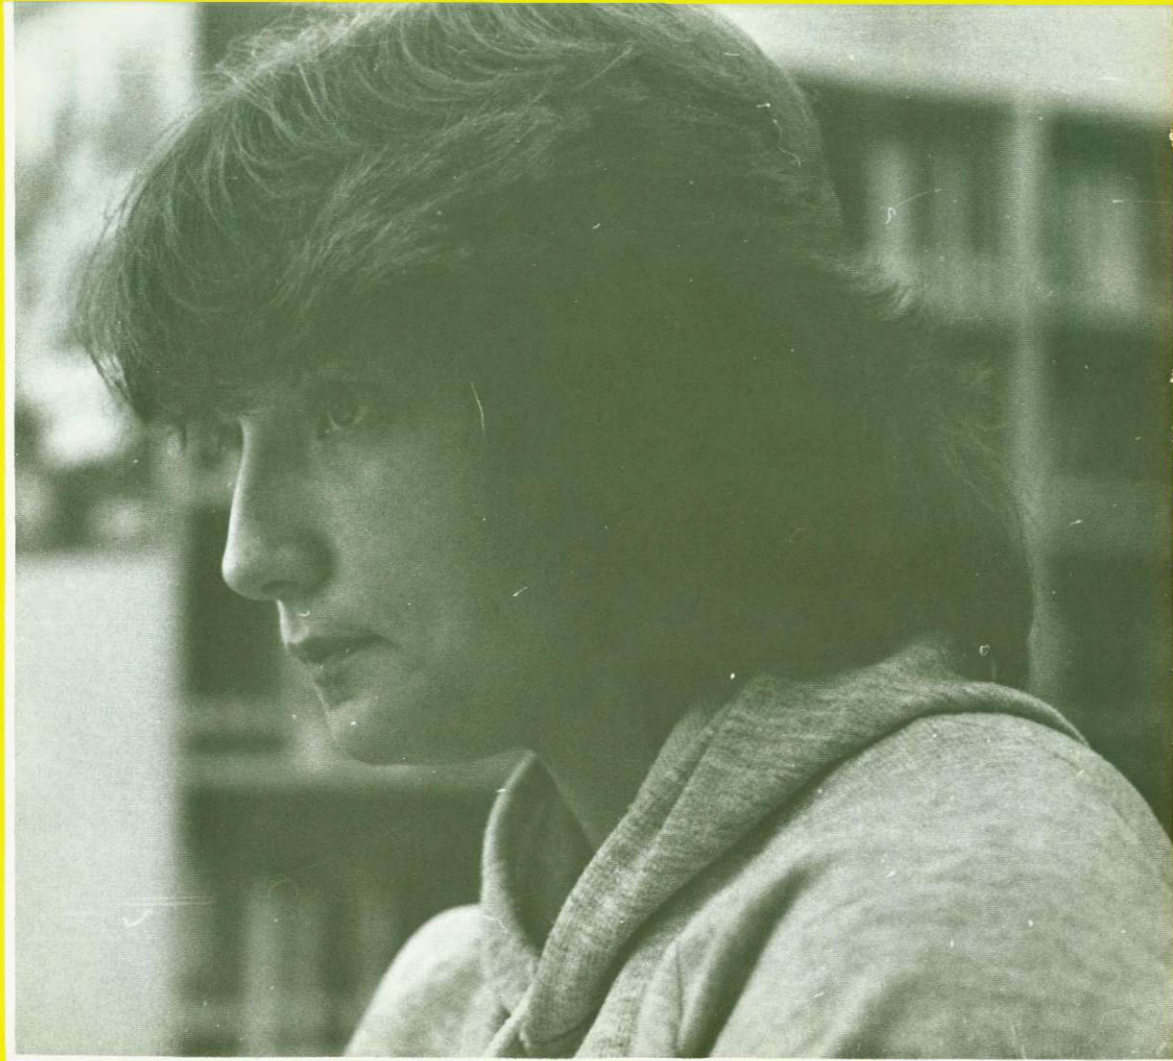

Glen Avon Invitational;
Sally Adomaitis - First E. P. Girl In
Mike Higgins - First E. P. Boy In

County Cup Meet;
Hosted by F. G. Miller High
Officiating provided by P. E. 20 and Math 13.
Well run except for (a) a group of final sticks were handed out at the wrong time
(b) Number 81 recorded as 18.
Jody Bugera - First E. P. Junior Girl In.
Mike Higgins - First E. P. Junior Boy In.
Junior High Overall Standing;
Girls - Fifth out of Eight teams
Boys - Fourth out of Seven teams

THE STUDENT BODY AT WORK

Students' Union Executive

Standing; Adele Young, Committee Convenor
 Karen Behr, Advertising Convenor
 Trish Mayner, Social Convenor
 Carol Babcock, Girls Sports Convenor
 Sitting; Angie Lesyk, Secretary
 Connie Chubey, President
 Aurelia Moneta, Vice-president
 Missing; Leanna Lesyk, Treasurer
 Mike Habiak, Boys Sports Convenor

This year has been a year of many changes with the new addition to the High School, and with the several changes within the students' union itself. The most beneficial, and successful to the F. G. Miller Students' Union was the formation of the Sports Association. In past years, the major complaint was our lack of enthusiasm in fund-raising; most dollars raised went to support extra-curricular sports activities in which a minority of students participated. I hope that next year, the attitude will change. There will now be a chance to make the Union flourish, not only financially, but also in enthusiasm towards activities. We have a strong and potentially successful student body, and if all pull together, it can accomplish nearly anything. All we have to do is GO FOR IT....

F.G.M.H.S.S.U.

IT'S BEEN ONE OF THOSE DAZE WHEN

...you wake up in the morning and look like this...

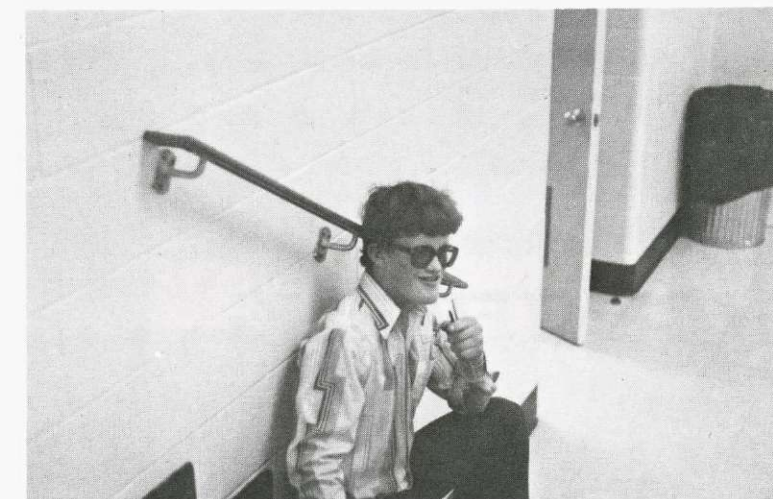

...when the whole class gets kicked out...

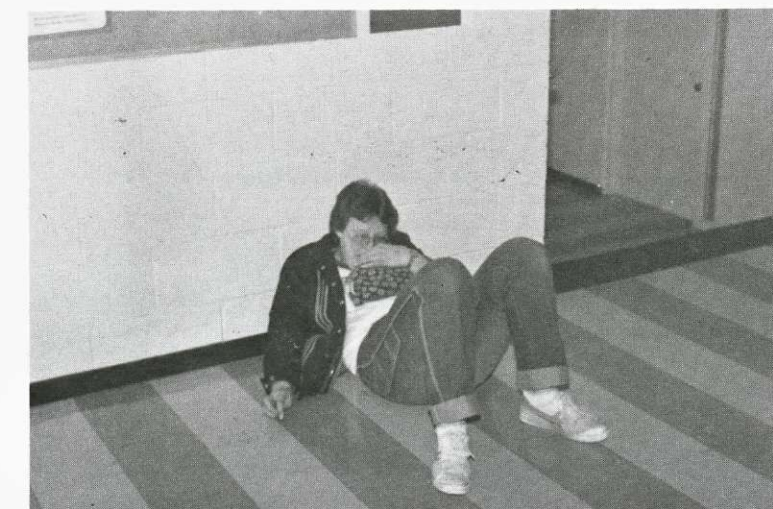

...your eyes are red and glossy...

...you knew you shouldn't have added the 2nd mixture...

...Wayne didn't make a comment...

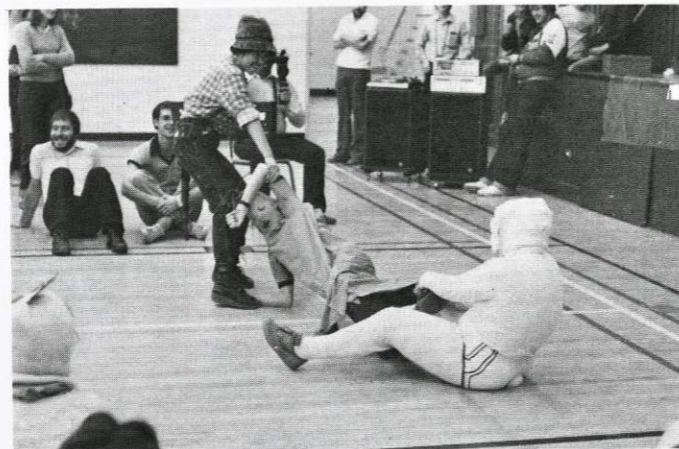

...you just can't hack another math test...

...what you did last night finally struck you as funny...

IN CENTER RING

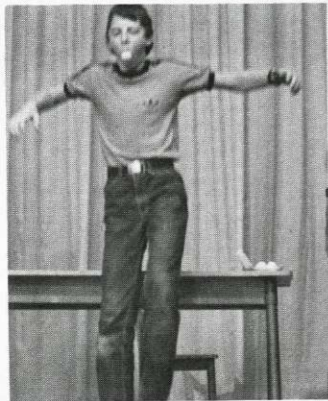

It seems that Initiation is a time of fear for some, but for the grade nines, it signifies another rung in the ladder of life. They're put through vigorous training to see if they can endure school life. One of the traditional tests is a dress-up day--this year the boys wore bras while the girls dressed up in underwear. Activities such as onion-bobbing, licorice-eating, egg-jumping, and whipped-cream-pie-throwing rounded out the program. Skits were also performed. This year's Frosh King and Queen were Eugene Piotrowski, and Barbara Kulczycki

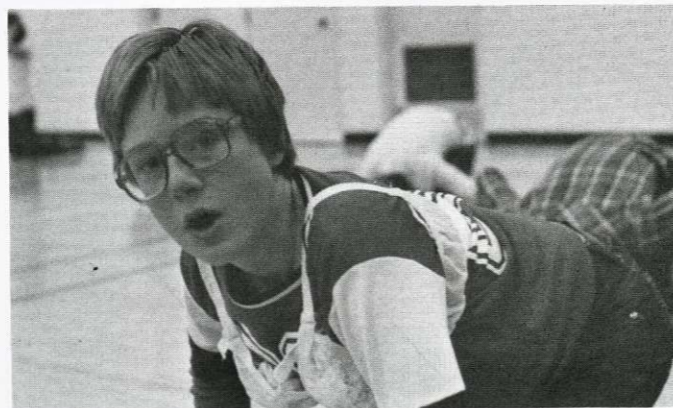

Watching the green sprouts grow...

But...but why?

Dracula!

Potatoes or Stove-top Stuffing...Stuffing!

The Main Attraction.

Never could hit my mouth.

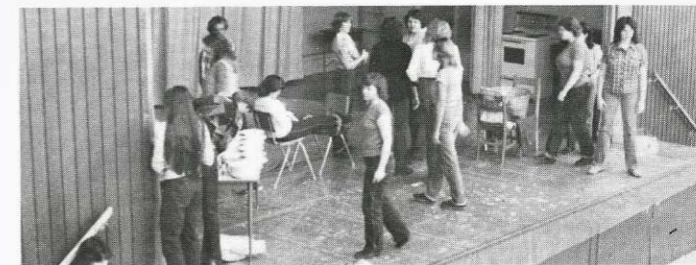

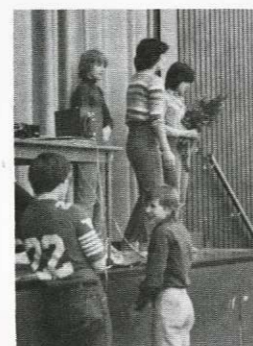

Frosh King and Queen.

Say... Uncle...

Heh! Heh! Heh!

KOOKS AND SPOOKS

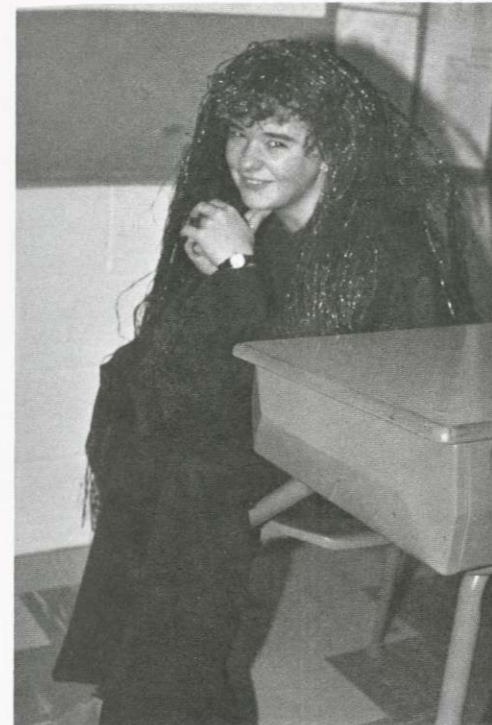

On October 31st, all students who were dressed up came to the gym for a free dance at noon. Scouts mingled in the crowds judging the various costumes ranging from Little House on the Prairie to the Frankenstein of Elk Point. Prizes went to "Tweety Bird", (Joanne Smith), Frankenstein alias Michael Habiak, and the Transvestite, (Tammy Young). Its really nice to see student participation...congratulations.

Laura Ingalls look-alike!

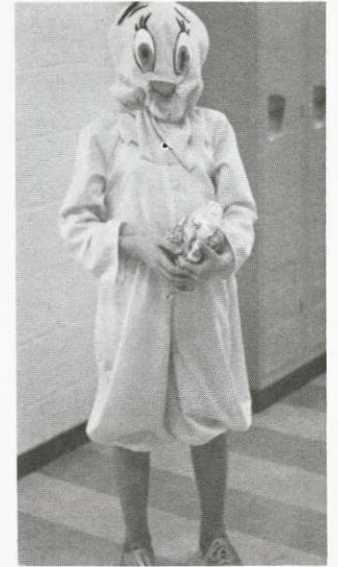

The Mob rules...

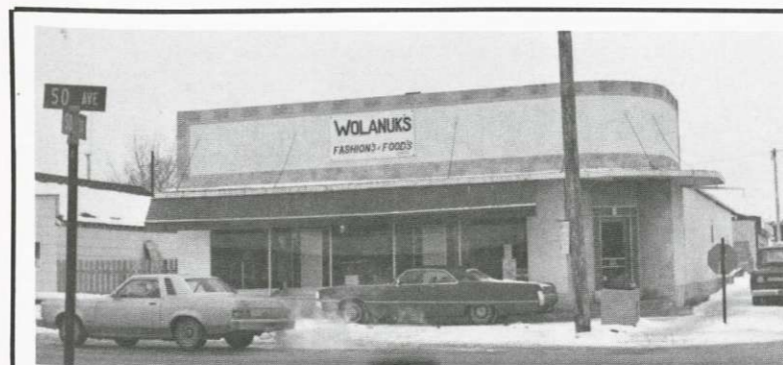

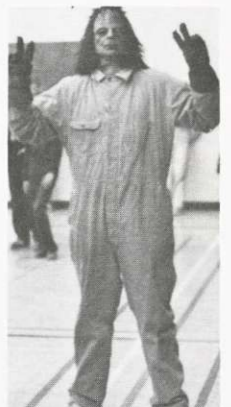

Oh you little Devil...

The new look...

Thought I thaw a puddy tat!

WARRIORS / EAGLES

The Junior High Boys' and Girls' Volleyball teams were not involved in league play this year because of financial limitations. This handicapped our teams from developing as far as was hoped at the beginning of the season.

Both teams were made up of a group of very active young people who worked well together.

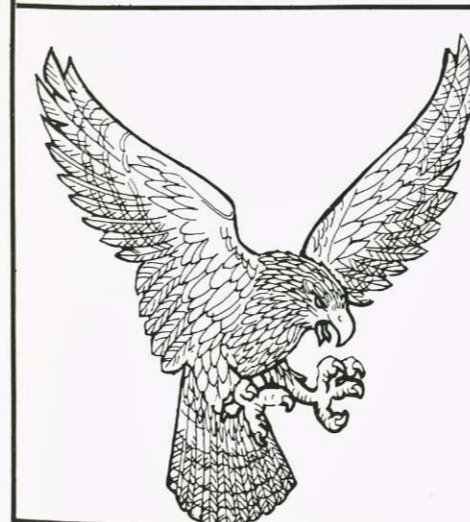

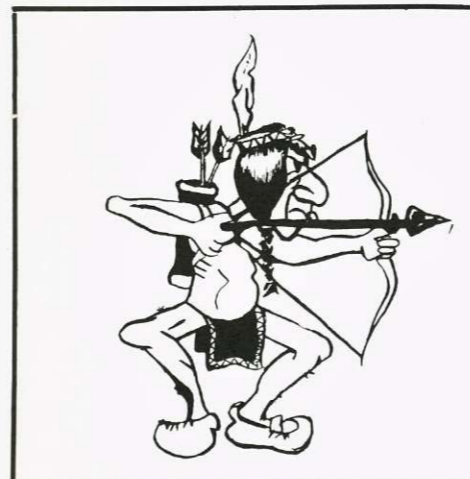

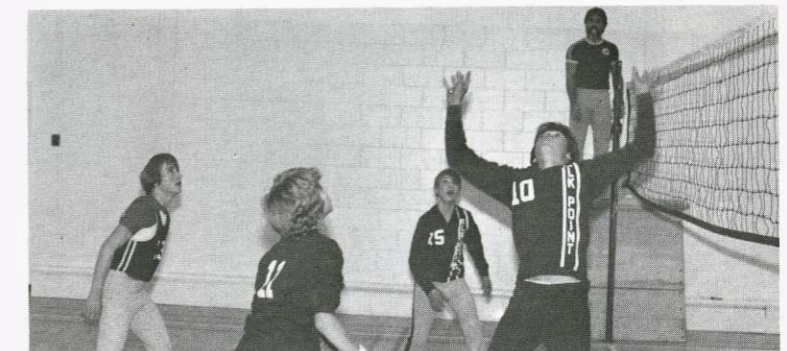

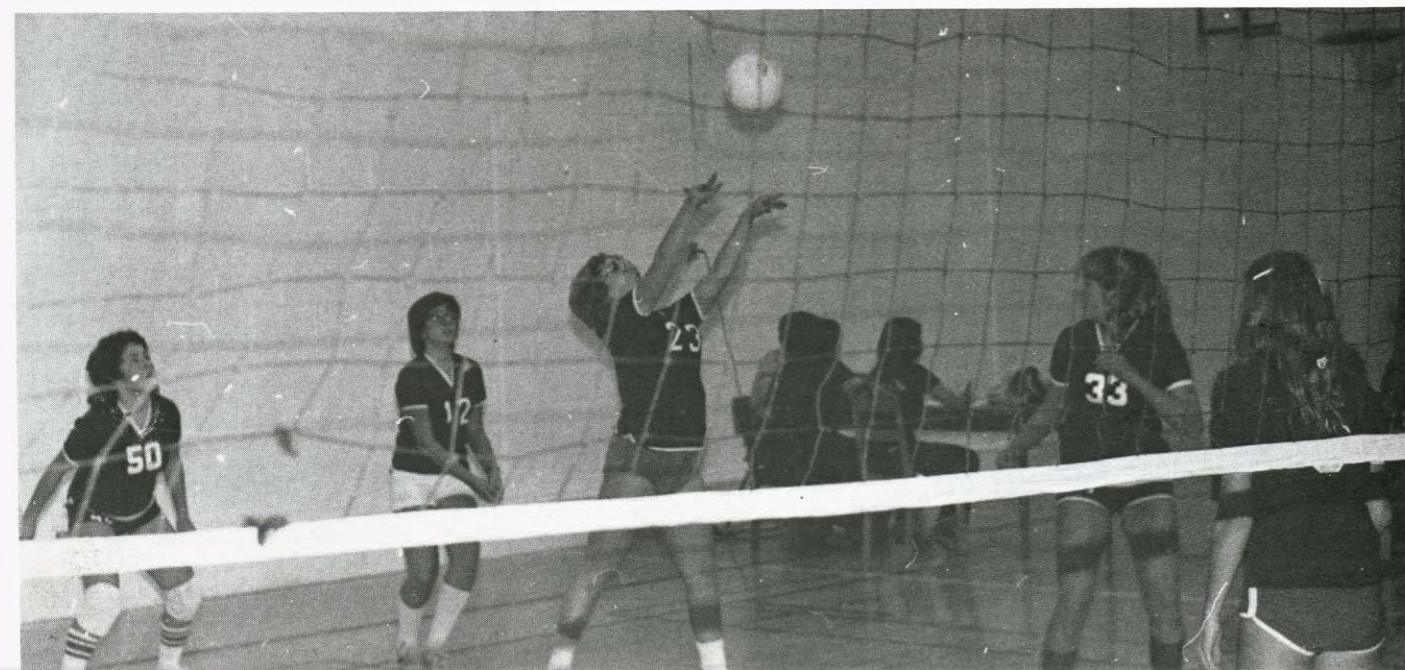

Unfortunately, both teams did not win any trophies, but participated very well in the County Cup, and in their own tournament.

In retrospect, it appears that 1981-82 was a year of rebuilding for our Junior High Volleyball.

Coach,
Dave Woloshyn.

It's a bird, it's a plane, it's...what is it???

SCORPIONS

This year, we had a good volleyball season. The turnout for practices was the highest it has been for years. We didn't win too many games, but we had fun.

We would like to thank our coaches Miss Donna Norman and Philip Shankowski for all their time and effort. Also to all of our supporters - thanks.

BLAZERS

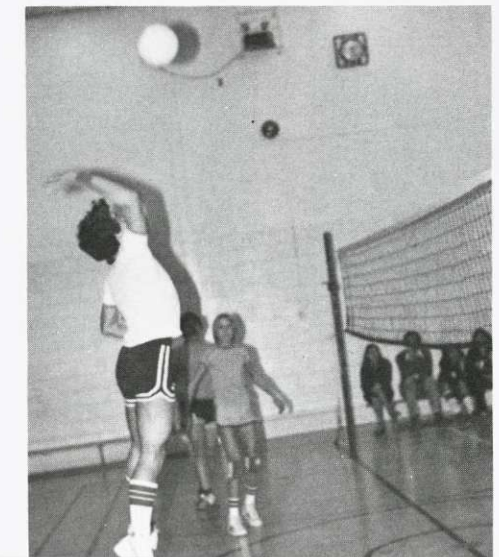

Volleyball is a unique sport which entails acquisition of basic skills. It is not a sport where one individual can win a game. It takes a constant meshing of personalities and individual skills of team members to become successful.

As I look back and compare the teams' performance from the beginning of the year to the final game at Vermillion, in Zone Playoffs, I realize that there was a tremendous improvement.

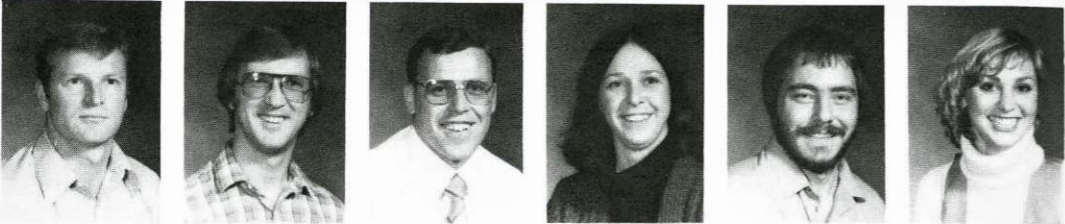

Eight die-hard souls were molded into a unit, with a specific goal, to play to the best of their abilities and never give up.

It took time, effort and hard work for the team members to bring about this change. I'd like to thank each member of the team for their participation and congratulate them for their improvement.

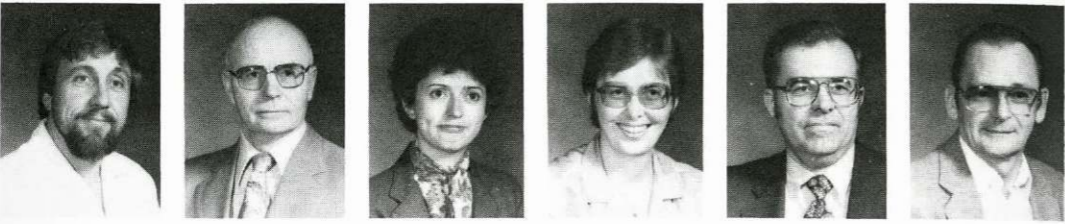

W. Nelson, Coach.

WINTER

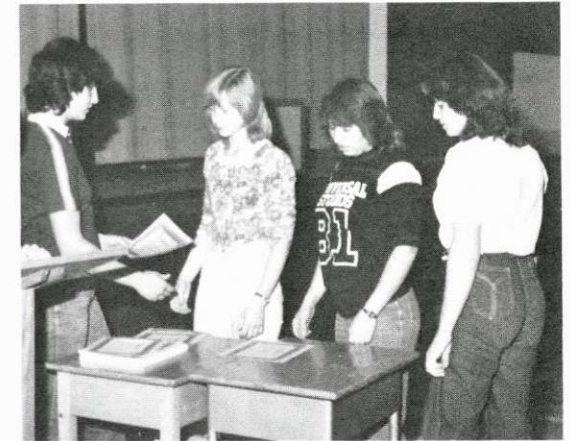

Grade 10 Matric Awards

Shop Awards

Awards Night is an annual event in which students with high academic standings are rewarded. In the afternoon, the day before Awards Night, the students have a chance to see who the lucky winners are, that is, the first, second, and third place standings in the various subject areas. Evening presentations consist of trophies and cheques to the first place winners donated by various businesses and individuals of the town and surrounding district. This year's ceremony was conducted by Dave Woloshyn M.C. -congratulations to all recipients, and a warm, sincere thanks to all donors.

SKI JASPER !

Karen Ockerman, Trish Mayner, Kathy Hanson, Dan Demers, Gary Ockerman, Brent Mudryk, Allan Ference, Annette Ference, Mr. Woloshyn, Mr. Forrest, David Ockerman.

This winter, a ski trip to Marmot Basin, Jasper, was offered to any student interested. It proved to be a lot of fun for those who could ski, and even for the beginners. Between watching Allan do unintentional sommersaults, and Gary helping Kathy come slowly down the hill, it was a riot. Allan was also fascinated by how the trees grew out of the rocks. Thanks to Mr. Forrest, we all learned how to speed down the hill and end up in a graceful nose-dive. Until next year, beware of "leaping trees".

A Valentine from us to you...

PARENTS AT SCHOOL?

And this thingamajig goes here...

Really!!! Is this Candid Camera???

I still don't understand that trigonometry.

Look...they're even in the cafeteria!!!

See Ron...It ain't gonna work!!!

This year, we decided to give the parents a chance to show us their stuff. It's been a long time since they've been in school, and we felt that a little refresher course wouldn't do them any harm. At least it may show them all the turmoil of getting up, sitting in class through some not so interesting classes, etc. etc...But seriously, on the whole, the day was a tremendous success. All present appeared to have a great time visiting and even learning together. It really was great to have our parents there for a day. Also we hope to again experience this Parent Exchange day later on in the next term.

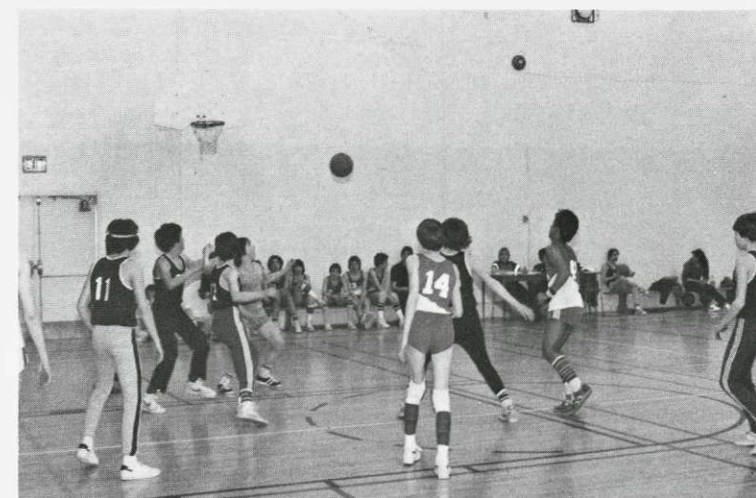

JR. HIGH

Roll Call!!! Everyone accounted for.

Soccer Practice!

that enthusiasm girls, the years of experience will take care of themselves. The best of luck to the veterans in their senior high sports endeavors. To the returning and to all potential new players SEE YOU NEXT YEAR...

Mr. Robert Boyd, Coach, Tracey Lorenson, Karen Kryvenchuk, Sherry Pinder, Joni Pinder, Cathy Buck, Connie Ahern, Gail Wirsta, Janet Volk, Carrie Stafford, Kathy Mistol, Missing; Sally Adomaitis.

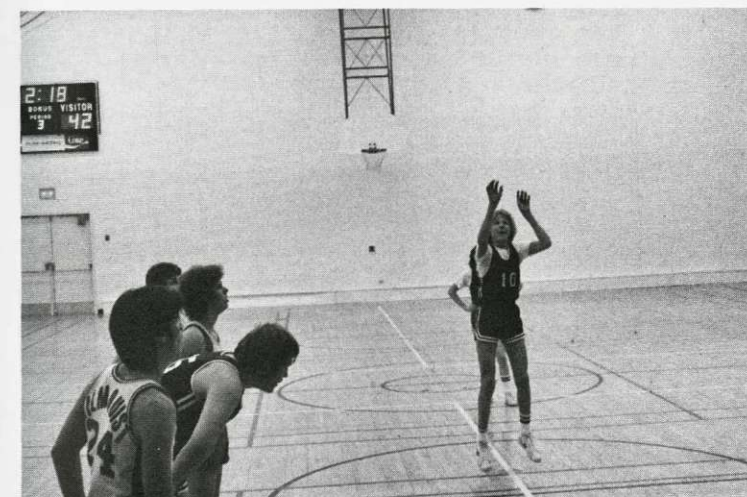

Derrick Paquette, Coach, Billy Bucharski, Brian Murfin, Donnie Paquette, Darren Koppang, John Charlton, James Pinder, Doug Price, Orin Ockerman, Douglas Nelson, Missing; Eddy Irvine

Enthusiastic, hard-working, and very dedicated. These three very important characteristics of any sports team, best describe the 1981-82 Junior High Girls Basketball Team. Team spirit was always high even though the number of points for the other team was usually higher. The girls, however, played in many close-scoring games, and did win one game 32-12 over Frog Lake. Hopes of attending the County Cup were diminished when the team was defeated by Frog Lake in a qualifying game. The team consisted of four Grade 7, two Grade 8, and six Grade 9 girls. From a total of twelve, there were only four girls that had played any basketball prior to this season. As coach, I saw a team of 12 virtually inexperienced girls show great improvement in their individual and team play. Although our team lost out in years of experience, it easily surpassed others by four times in the enthusiasm and determination department. Hang on to

SR. HIGH

It's mine and I want it!

You miss and I'll...

While the boy's season was not very successful in terms of wins and losses, the basketball future at F. G. Miller looks bright. Working hard all year, a young and inexperienced team improved game by game and should be a strong team next year. The season started with a pre-season tournament in Grand Centre, and continued with a league schedule involving St. Paul Regional, Mallaig, Blue Quills, and Ashmont. Elk Point's final record was 2 wins and 6 losses in this league, but the team was playing much better at the end of the year. With most of the team returning and a number of players attending summer basketball camps, look for the win-loss record to improve considerably next year, even though graduating players David Ockerman and Bobby Sureman will be missed.

Mr. Forrest (coach), Michael Topylki, David Ockerman, Michael Habiak, Kendall Scott, Ken Dion, Ron Wirsta, Jim Mistol, Wayne Tymofichuk, Dan Currey, Bobby Sureman.

Donna Ockerman, Ruby Hawrylak, Karen Ockerman, Carol Babcock, Kathy Hawrylak, Connie Chubey. Missing; Denise Maas, Tracey Poitras.

FUN IN THE SNOW

SPRING

CALIFORNIA

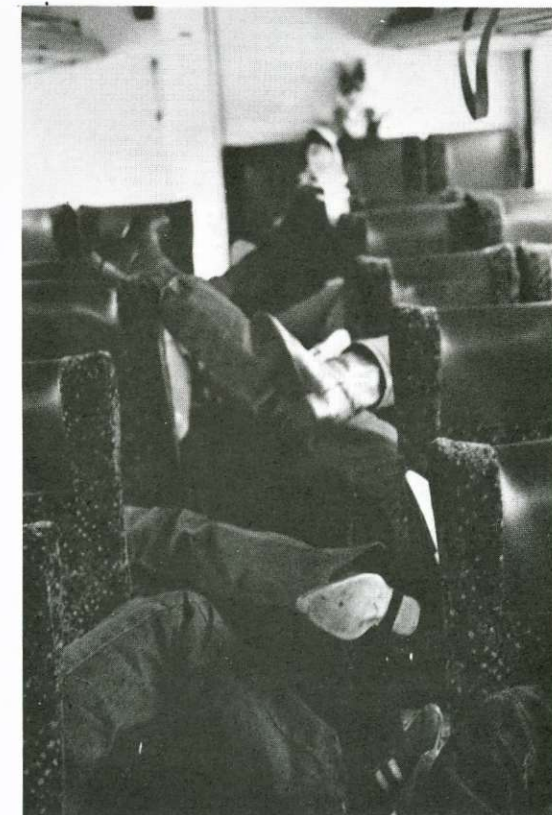

Again this year, Mr. Pidluzny was generous enough to take us on the California Biology trip; however, I don't think Biology was a priority on many of our minds. There were too many other things to see...if you know what I mean... It was a real great experience to see and experience so many different places, people and "biomes". Besides us from Elk Point, friends and relatives of Mr Pidluzny joined us in helping fill up a bus. We got to know them very quickly, and all felt like a family--Columbus and Company out to discover the New World...

Bus rides were at times long and tedious, but we managed to keep ourselves busy playing cards and visiting, and of course...sleeping. Universal Studios, Sea World, Disneyland, and Knott's Berry Farm were just a few of the things that we greatly enjoyed.

Again, thanks to Mr. Pidluzny for taking us, Roy for driving us safely around, Marg, our escort for her part, and Marlene, our female chaperone. It was an extremely worthwhile trip and I hope that next year, there will be another such opportunity for the Grade 11 students.

Denise Smereka - Yearbook Editor.

Junior Boys Softball

MEMBERS: Coach, Mr. L. Pidluzny, Orin Ockerman, Rodger Bugera, Jason Jenner, Michael Boratynec, Dwayne Sheplawy, Duane Wolanuk, Jason Anderson, Brent Ockerman, Lane Lorenson, Garrett Gregoraschuk, James Pinder, Jimmy Yarmuch, Willie Lesyk, Larry Ference, Bradley Anderson, Eugene Plotrowski, Craig Campbell, Ronnie Vogel.

Even though an extremely short season, interrupted by rained-out practices, the boys managed to put on a great show of cooperation and skill at the County Cup finals at Lakeland Ball Park, Saturday, May 29th. The players listed above all had a chance to play and really demonstrated perseverance during the two games they played. They won the first against Heinsburg on a pinch-hit home run by Jason Jenner, but unfortunately could not pull out the second game with loaded bases and only one or two runs behind--the game was extremely exciting right down to the last pitch. Next year....Look out County

Everyone will remember Joanne Babcock by her vivacious bubbly personality, whether in English, her favorite course at school, or during the tougher Recordkeeping and Business Foundations. The best time Joanne claims to have had was in drama, but admits that the worst thing she had encountered while a student was in Grade three when she broke her pencil...??? Joanne would like to go through life without ever having to pay income tax, but we're sure that Pierre will have something to say about that.

Connie Chubey (Harvey) was President of the Students' Union, Room Rep, and Sports Convenor in High School. She tremendously enjoyed Special Projects, but her least favorite--well, it was a tie between Biology and Math. Getting into the bar while under age (but with a cop) was one thrill Connie will remember, but while playing basketball and getting beat up by the nice girls at Blue Quills was not such a wonderful experience. A message Connie has for all future grads--"Don't waste any time--do all that you can because once that time is gone, it never returns. Experience everything you can because this is your last year to be an irresponsible kid! Give her till you drop.

Dan Demers will be remembered for his orange hair, and his dislike for typing. The best time Dan had was after two days of begging Crystal, he finally got a Grad kiss from her. The most embarrassing moment was hitting a power pole with his mother's car while dead sober. Dan's pet peeve is people who touch any of his hats. Since moving into Elk Point, the only thing Dan despised was the fact that the bakery is closed Mondays. His ambition is to collect more than one hundred different hats.

Cindy Ewasiuk enjoyed her many nicknames--Cindichka, Blondie, Farrah, Sweet Cheeks, etc. - as she plowed through Grade 12 on her pursuit of her goal of becoming a dental assistant and marrying the dentist. The most embarrassing thing that happened to her was on the Grade 11 California trip when Lawrence Ference insisted on storing ice cubes in her shirt, and trying to retrieve them in San Francisco, Los Angeles, San Diego.... She would like to see brother Adrian fed to the sharks because he brags about his "nicer" teeth, but considers Leanna to be her most favorite person because they enjoy beerfests equally well.

Annette "Annetteskichuk Tobbagansled" Ference most enjoyed Clothing and Textiles, but really could not get the hang of Canadian History no matter how hard she tried. She can be remembered by her loud "Yahooooo" heard in winter as she drove downtown in the Supercab with the windows down. Her most embarrassing moment occurred in the RCMP parking lot when Glenda got stuck in the back window of the truck. She enjoyed Mr. Nelson's superb teaching ability but could never catch on to Miss Foley's sense of humor. Her ambition is to become a cop and get transferred to the Northwest Territories.

Glenda "Mamma Goch" Gochko's work experience at the Toronto Dominion Bank was one of the stepping stones to her goal of becoming a bank teller. Her two most favorite people in the world are her mom and dad as they provided her with a home and love for eighteen years. Her least favorite is Pierre Trudeau, for she feels that she would run the country much better than he. (Sounds good...) Glenda enjoyed spares mostly, while Math 33...well...anyway, she'll be well remembered for the way she let people know what she thought of them.

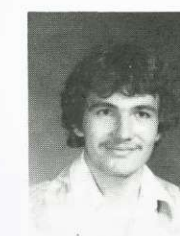

Kathy Hanson nicknamed "Ockerson" was President of the Sports Association during Grade 12 where she also enjoyed Ockermanology 30 and spares, while being turned off with classes which were compulsory. Her one shortcoming was not being able to practise Grad march in new shoes; another was not being able to learn to ski on the Ski Trip--everything seemed uphill! Kathy's pet peeve is people who don't like rainbows, while a life-long ambition was to build guardrails on all highways, secondary roads, and side roads so that her date can at least make it for two weekends in a row without hitting the ditch.

Kathy Hawrylak, nicknamed "Max" was Secretary Treasurer of the Sports Association in her last year of High School where she also enjoyed Sleeping 30 and Daydreaming 33. First classes in the morning were most painful for Kathy, but she greatly enjoyed hassling her Social and English teachers (neighbors) and watching the results when they confronted one another. She did not enjoy Dan Demers though, for he bit her lip when giving her a Grad kiss. If she had a chance to do it all over again, she would start sooner, stay awake longer, and make the best of what happened in between. Her ambition is to get a drivers licence but first a learner's permit would be nice. Good luck Kathy!

Mark Hellquist, part-time yearbook photographer, has an ambition of being the world's best photographer, but first would like to attempt some "centerfold" work in L. A. In school, Shakespeare "plagued" him while more appealing activities occurred while in Phys. Ed. A most embarrassing moment approached while he was saying a speech and his ears and face turned beet red just prior to getting that "faint" feeling. People who don't agree with him even though he may be wrong constitute Mark's pet peeve. If he had a chance to do school all over again, he feels he should at least be paid minimum wage!

Crystal "Jake" Jacobsen will be remembered as the shortest Grade 12 in history. This drawback even resulted in her getting run over by Mike Metz's car at a Texas Mickey party. She felt that the stepping stones to her dreams should have been put just a little bit closer together so that she could reach them and not fall into the ocean. Crystal enjoyed her spares very much and told us that classes always seemed to interfere with her schooling.

Karen Jenkins, sometimes known as Professor Petri Dish..I wonder why, because Biology was never her bag she said...enjoyed Drama, and English most of all, while in Grade 12. Her ambition is to make it to her twenty-second birthday--that shouldn't be too difficult. She is still reeling from when her pet moth died, but with tender loving care and some special medicine, Spamante Bambino, Karen should survive! Her good friend Joanne will ensure that her special perscription remains filled even though she has to share. For more information Karen suggests that you call her at 867-5309.

Guidee Krankowski (Dunia) served on the Grad Class Decorating Committee this year. She enjoyed English, because there was never a dull moment there, but morning classes regardless of the type were difficult. On the Biology trip to California Guidee enjoyed cornering Adrian in the girls room and trying to retrieve the room key as He stuffed it in his jeans pocket. Her most embarrassing moment was tripping up the Hotel McDonald steps when leaving on that trip. Guidee's pet peeve was people who refused to go to beerfests! Seriously though, Guidee will be attending NAIT to study as a dental assistant.

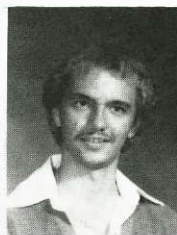

Roxanne Labine's future aspiration is to go to Grant McEwan College in Edmonton in preparation for a career as a Registered Nurse. She told us that Biology was her favorite course, HMMMM.... The best time she has had in school was seeing Wayne run over by his own bicycle while the most embarrassing was falling into the garbage can on her way into Chemistry class. Yearbook editors who made her fill out stupid forms got on her nerves, but she calmed down when Derrick came along. An outstanding feature that Roxanne may be remembered by is her strong, unfaltering voice.

Leanna Lesyk's ambition was to hurry up and get out of school so she could become an airline stewardess and be able to fly as high as Mike and Brian. Everyone should remember her by the sound of her spikes down the hallway, and of her laugh. She tried in the last three years to break the Hair-combing record that her sister established years ago, but failed. Tall, dark, and handsome Randy Hamilton from "Texas" is her favorite person, while she would like to see Grant Wheeler fed to the sharks since he fell off the "Edge of Night" and landed up in "Another World"! If Leanna had a chance to do it all over again, she would, but only a little quicker at disposing of her cigarettes.

Ron Lesyk was Vice-President of the Sports Association while in Grade 12. He also enjoyed Chem 30 and Social 30 but failed to list those he didn't like. He'll be most remembered for his cruising the streets of Elk Point on a Friday night with the stereo on playing Ozzy Osborne full blast. The best time Ron had was when he handed in his last Social Essay while the most embarrassing was when he mistook "Shakespeare" as referring to a new Puerto Rican golf ball. He tells us that Mick Jaggar and McBeth were related, but who knows... Anyway, in the future, Ron plans to own a Corvette and attend Nait in preparation for a life-long career.

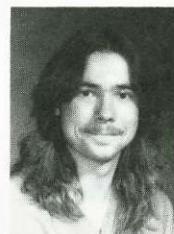

Allan Loughran or "Mr. Atari" will be remembered because he never knew where he was going, and always landed up getting there late. The greatest time Allan had in school was finding out it was his last year, while the most embarrassing was getting kicked out of shop for 2 weeks for singing "Rubber Ducky, You-re the One" over the intercom. He is his own favorite person (Number One) while Pierre Trudeau the worst because he talks too much, and makes no sense. If Allan were to do it all over again, he would but much harder and faster.

Leona McAleese (CB handle - Cowgirl) enjoyed High School English, but not as much joy befell her in Business Foundations. Her most outstanding feature was her nose which she seemed to follow around all the time. Leona had a great time in Drama with Mr. Free as she and Rony Link were husband and wife in a play, and something about beds during the play was mentioned...hmmmmmm! Her most embarrassing moment occurred while in Gr. 6 playing soccer with the boys and having her pants let go in the middle. Her mom is still her favorite person in the world, while gossippers are her least. Her future ambition is to teach girls baton twirling and become filthy rich as a professional dancer.

Mike Metz is on a campaign to increase the population of barbers in the town since for the last four years of school, none were available to give him a haircut. He will always be remembered for his extra-long hair, and golden earring. The most embarrassing moment was attending school during National Skip Day and having the alarm on his watch go off in class. I wonder...really?? Anyway, we cannot reprint some of the rest of the comments. For further information call 555-9987 and ask for Sophie.

"Rabbit" or "Ralph" (Aurelia Moneta) loved Social Studies and Biology (loved falling asleep that is..heh heh!) but pulled off great marks anyway. Aurelia's excellent driving ability will be remembered always as well as the time she put fish eggs in the boys' beds on the Biology California trip! (Poor fish!) Her favorite person is "Radar" from M*A*S*H because he loved rabbits, but despised "Yosemite Sam for always wanting to "plug them fuulll of holes!!!" Aurelia's ambition was to be accepted at a special school where they could teach her how to carry things without dropping them!

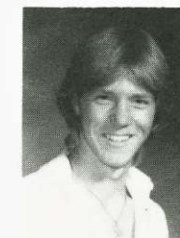

Gary Ockerman liked working with contact cement in shop but disliked Chinese Torture with Miss Foley. The best time Gary ever had was escorting a fellow drunk down the ski hill at Jasper. His pet peeve is trying to get his truck started regardless of the season of year. If he were to do these last three years over again, he would, but he'd date wilder women, and drink stronger whiskey. His life-long ambition is to marry a bankers daughter--for her money.

Donna Ockerman was advertising convenor last year, but this term she thought she would devote all of her time in fulfilling her ambition of becoming Miss Dairy Princess of Alberta. Her pet peeve is people who fall asleep at a Dine and Dance supper table, and simply refuse to awaken. An outstanding feature she says is standing out on main street with Stacey asking people which way to Sesame Street. The worst thing that she experienced was fainting in Math Class being caught on the way up by Connie, while the best was having to stay all day in the infirmary. Donna would like to get kicked out of school for life if she had a chance to do it all over again, but I don't think she's mean enough!!!

David Ockerman plans to own the biggest ranch in Alberta very soon after he wins a million-dollar lottery. He enjoyed Accounting a lot in Grade 12, but English not so much!!! Dave's favorite people in the world are women, except for "Rat Patrol" who he thinks believes that men are now obsolete. The noise his cowboy boots made will be a sound long remembered as will be the embarrassing moment when his pants split while playing volleyball in the gym at noon. The Grad '82 and the last day of school were "Uncle Dave's" most favorite moments.

Della Pankow was Grad President and Social Convenor in her last year of High School. She enjoyed Chem (trying to be the mad scientist) but really disliked any course that involved "brainwork"! Flower-making while full of "100-proof" seemed like a great thing to do, but she also commented that her pet peeve was people who could not "fluff" flowers. She admitted she would be Grad President all over again, but for a higher price--two Texas Mickies instead of only one. Her somewhat far-fetched ambition "to be the first to park atop a tree" we hope will not come true--just think what the tent caterpillars might say....

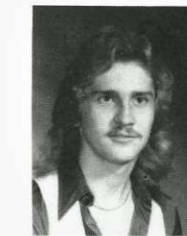

Marlene Schuhmacher, or "Stretch" enjoyed Truancy 30 most and her constantly-breaking-down typewriter least in her last year of High School. Highlights of her year also included flying (off a balcony) and becoming injured at the Grad party during a "heated" argument with a guy. Business Ed. will always be part of her future aspirations, as she hopes to follow in the footsteps of her favorite teacher. Marlene wishes she had a moustache like Adolph Hitler, and also the ability to persuade W. M. to go out on a date with her.

Math was never one of Richard Seniuk's preferences, but nonetheless, he did enjoy school tremendously, especially when it came to Industrial Ed. and spares. Students will not easily forget Richard's black truck filled with eight or more souls driving on up to the car wash. His ambition was to be able to wash his truck as often as Leanna would comb her hair. Another ambition was to grow Chevy's at the Chevy Farm. If he had his way, and had a chance to do high school over again, teachers and homework would be banned, and operating hours of the school would be from 1:00 pm to 1:10 Monday through Tuesday...

"I think I wither forgot to do this information form, or else its in my truck somewhere! I'll definitely bring it in tomorrow, okay!??
...Myles Woloshyn.

Becky Shymkiw, AKA "Buddy" enjoyed English, but not typing, since she could never get away with anything in class...she claims Mr. Nelson has eyes "in the back of his head"! Besides having trouble always tripping over her long legs, and finding out which fertilizer gave you the best growing results, Becky did enjoy school. Even though terribly embarrassed when dropping a dish during Grad 81 speeches, she kept right on working towards her ambition of being an airline stewardess.

Mary Wong, nicknamed 'tomato' enjoyed all her courses, especially chemistry. She was the only Chinese girl in school, and if she had a chance to 'do it all over again' would not change a thing. Mary enjoyed her Grade 12 tremendously especially Grad, and Grad preparation, although at the grad party, it had been mentioned that she had been acting rather "unusually"! Mary would like to travel a lot in the future, especially to China and Europe, and as she said.. "a stepping stone to that dream would be to make money, get a partner, grab a big bag, and --come on, let's go---."

Stacey, Casey, K.C., Smereka enjoyed Mixology 33 and counting the dots on the ceiling during class. Everyone will remember when she and Lesley used to stand by Mr. Free's door and preach from his podium "George"! Her most embarrassing moment arrived when her shirt accidentally popped open in the hallway during rush-hour. Her most favorite person in the world is Dave Semenko (his body!!!) but least admirable--Danny Demers for he would not admit that he luvs his twin Wayne Gretzky. Look out world because here comes the future, the greatest bartender the world will ever see.....S. C. K. SMEREKA!!!!

Treasury Branches

Have you thought about a career with the Treasury Branches? An exciting opportunity awaits those students interested in people, service and salesmanship, rapid advancement, and excellent working conditions.

Wayne Hanson, Manager
Elk Point Alberta
PHONE: 724-3883

Bobby Sureman was Room Rep last year, enjoyed Chem but not typing, and loved growing beards throughout the year. His pet peeve surprisingly were "hippie kids"! (and Dan Demers...) Bobby said he definitely would do school all over again because he enjoyed every minute of it. He plans to be a butcher, baker, or candlestick maker, and to join up with his friend some day...(???)

ELK POINT
BAKERY LTD
724-3819

Paul Suvak (Apaulo) had a habit of parking too close to sidewalks so that the car door always would get stuck. The best time he ever had in school was finding out he had a bigger chest than some of the girls in school. An embarrassing moment for Paul occurred one day when he wiped out while crossing main street. His most favorite person was Aurelia Moneta (reasons will not be disclosed here) while he feels Connie Chubey should be fed to the sharks for the way she tends to joke around... If Paul could "do it all over again" he said he'd be sure that it wouldn't be in school...!

Bev Topylki, nicknamed "Al" served as Room Rep and on the Grad Decorating Committee. She liked Chem but English right in the morning was a little too much. The best time Bev had in school was attending Teachers' Convention and discovering what it is the teachers really did at such so-called "conventions"! Her most embarrassing moment was finally making it into "Smitty's" lounge only to have someone holler out loud "What time were you done school today?!" Her ambition is to attend the University of Alberta for a degree in Business Admin. and Commerce.

The theme we have chosen to represent our feelings on this occasion is "A Stepping Stone to Our Dreams." On this, the Seventh Day of May, 1982, we step over the threshold toward the rest of our lives, and we are happy to be sharing it with you.

We must now look forward--toward our destinations, for there is no turning back now. The past has gone, and it will forever be behind us. But, one feeling shared by all of us, is the importance of those years in our development. Today is the day when all of those who have played a part in our lives receive our gratitude. It is you people, that we have invited here today, to share this occasion with us, who are the foundation of who we are.

Our time in school has taught us many things beyond the basic alphabet, or the one hundred and one ways to waste a class.

It is in this atmosphere of desks and gyms, and bus trips, that we have learned the skills of compatability and sharing, and the source of determination...and we have been conditioned to think that school is good for us, even though there are times when we would rather reject it in lieu of much more appealing things. But as we grew older, we have, and we shall continue to, realize the significance of this institution.

So, in the midst of sneakers, and blotting pens, we have learned the meaning of education. We now pay tribute to the people who have made our graduation possible. The following is a quote I am sure you have heard before. The author remains unknown, but he has expressed much of how we feel

"Teachers are nerve-wrecking nuisances, just task masters to be endured, but when graduation is over, and it's time to face the world, we are thankful for the knowledge and understanding of the most dedicated people in the world...Teachers.

And even though it is sometimes difficult to accept or understand the direction these people have guided us, we are deeply indebted to them and their dedication has paid off in many more ways than providing us with a Grade 12 Diploma.

We have been taught that we are social beings, and that we must try to live in harmony with others. We should approach others with an understanding that each of us is an individual in conjunction with tolerance and respect of that individuality.

Through the years and all of the changes, the hardest to accept was growing up. We have had to watch good friends depart, as well as newcomers enter.

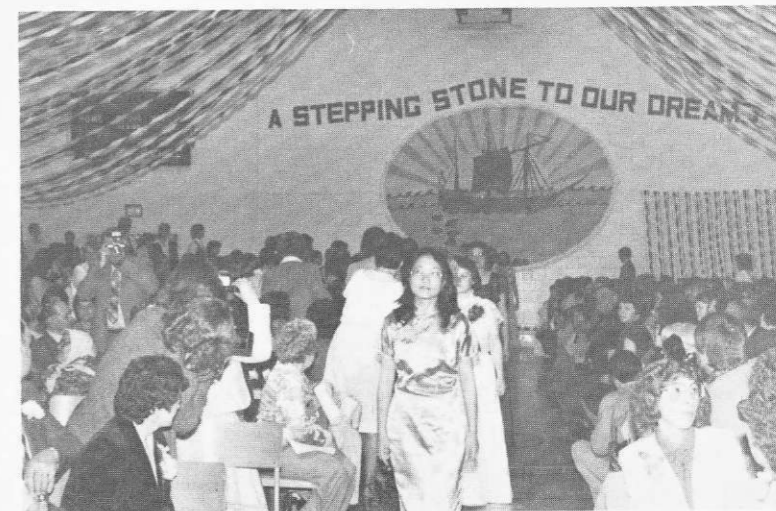

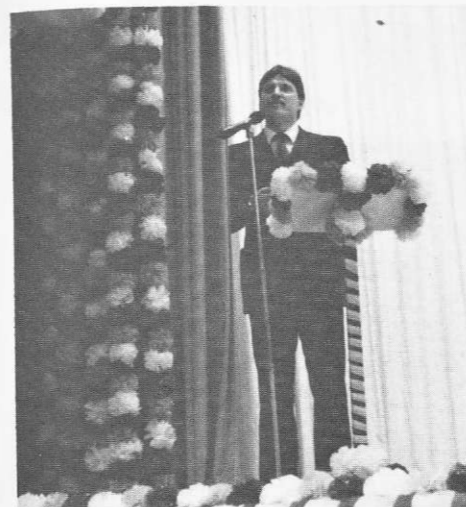

Many of our childhood dreams have faded with the passing of time. Yesterday's dreams have subsided, and new ones have grown. Now, our aspirations are no longer those of a child...but of an adult.

Each of us has our own individuality with which we will approach our futures. And as we each interpret success in a different light, we will pursue our successes in different directions. Success comes in many measures, and each of us has our own personal list of achievements and failures. But in our minds exists the thoughts of our personal dream to tackle the world. These years of our lives spent in the midst of text books and teachers shall serve to open the doors beyond us as we strive for those successes.

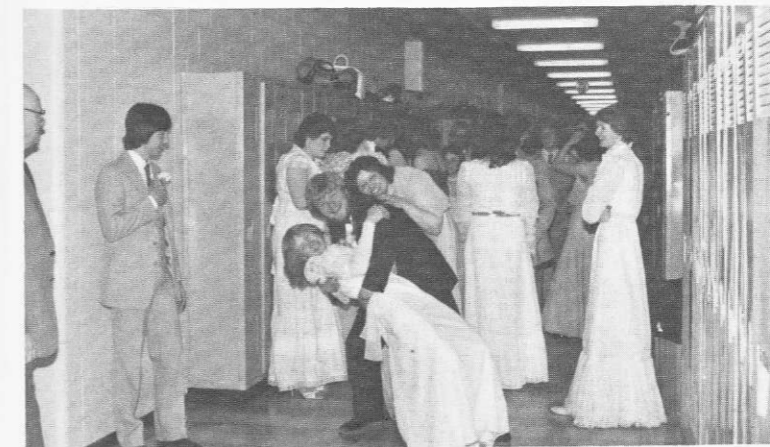

To our parents, we extend much more than can be placed in mere simple words. Our appreciation for their toils and troubles must come from our hearts. For the many thing we have taken for granted, for the last 18-odd years, we must be grateful, for soon many of us shall leave that comfort and for the patience and understanding that can be replaced by no one else, we thank you.

So this day has now arrived. It is a day for assessing who we are, and where we are going. And, as in our theme song, we are setting sail for it is time for us to trust our guiding light.

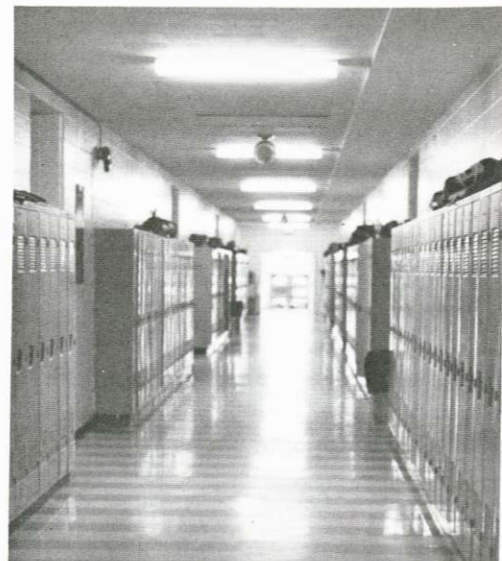

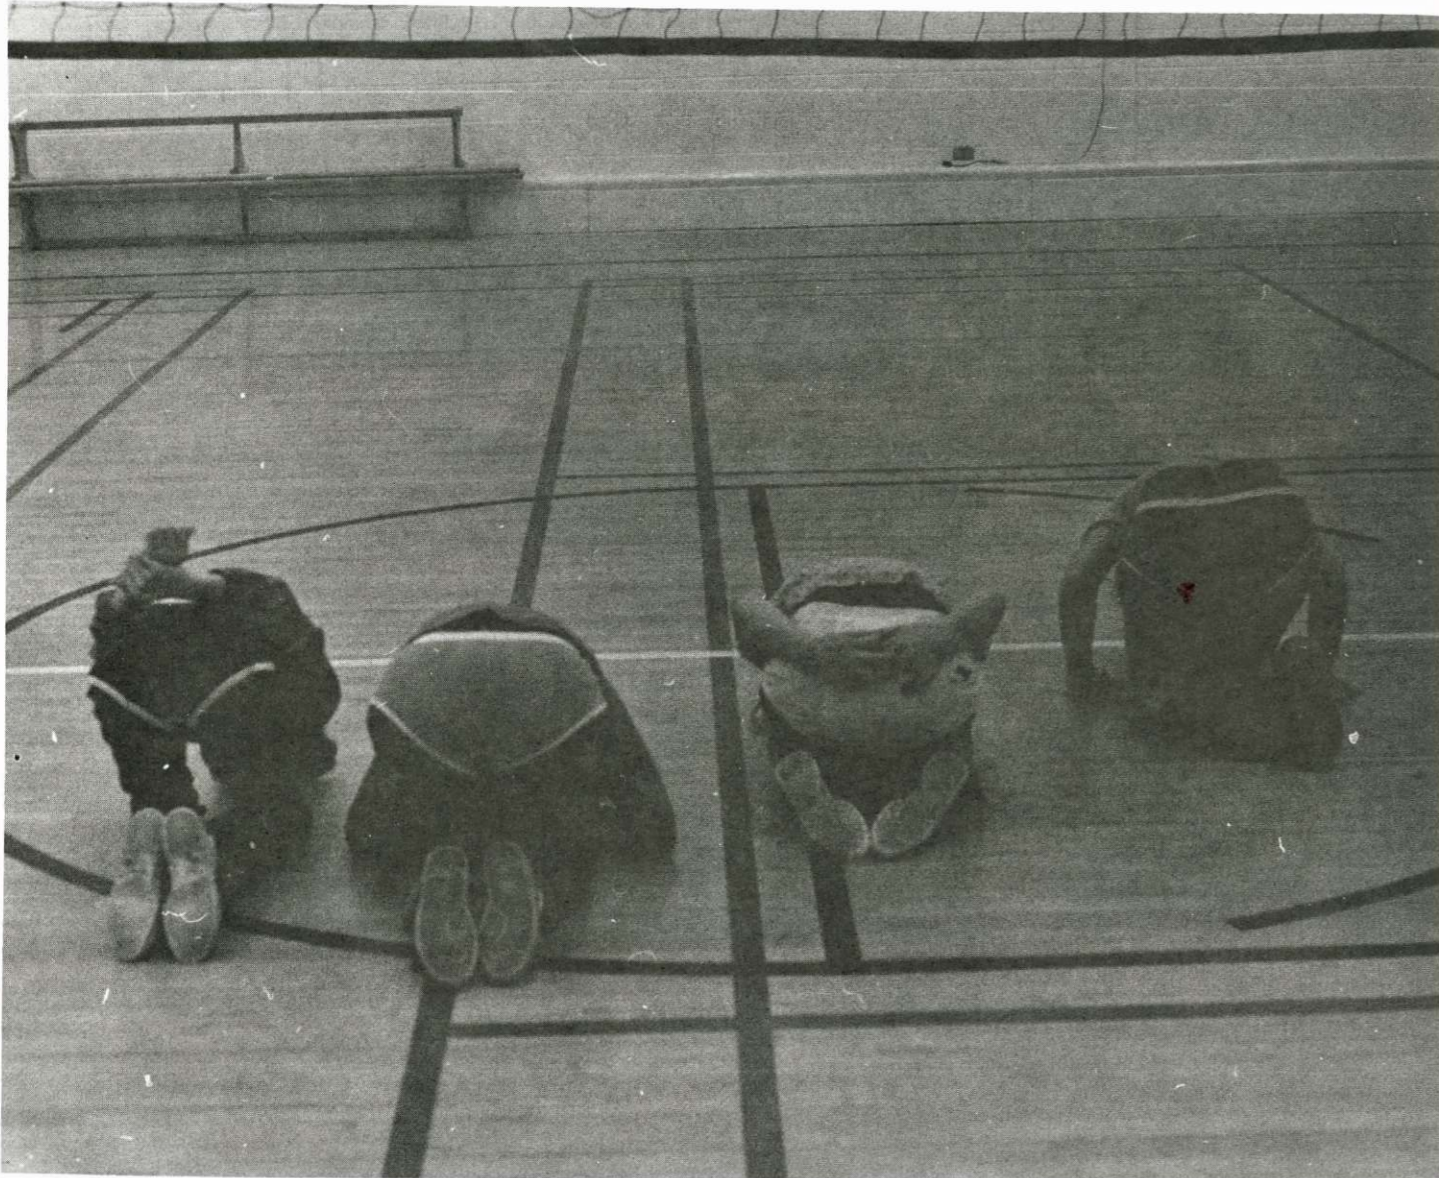

In closing, our graduating class has a special thought to share with you. It was on this day, May 7th, 37 years ago, that the second world war ceased. We would like to express our deepest sympathy to those of you who incurred suffering from that war. But we are an optimistic group and although we will soon set out on our journeys, we will never be too far apart-our memories will be with us..forever...
