DEDICATION

*A key was turned for us long years ago
 Before our eyes had seen the dawn of day
 These portals opened wide to eager youth,
 Who sought the light of Truth the world had lost
 The years have passed; the key is worn and old;
 The brick and mortar too, bear marks of time.
 But Truth still glows with brilliance dazzling white
 Nor shall she ever lose her lustre here.
 And we who walk her lighted pathway now
 Pay tribute to those figures, who through years
 Of quiet fearless giving stand on guard, --
 Our teachers, vibrant spirit of our school--
 God bless their generous hearts and make of us
 Reflectors of the truth they nobly taught.*

PRINCIPAL'S MESSAGE

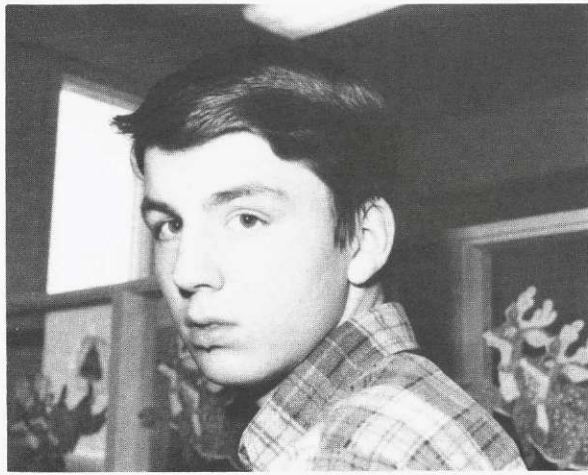

School is a copy of life. You get out in direct proportion to what you put in. I think this book reflects how much the students, staff, and parents of F. G. Miller Jr/Sr High were willing to put in this year. School should be a fun place. It should be exciting for students. Our objective is to provide something for every student to enrich their school life. Hopefully, our academic programs and our extracurricular activities have done that for everyone who availed themselves of the opportunities presented

From an administrative point of view, it has been very enjoyable working with the staff, students, and parents this year. I look forward to an even better year next year.

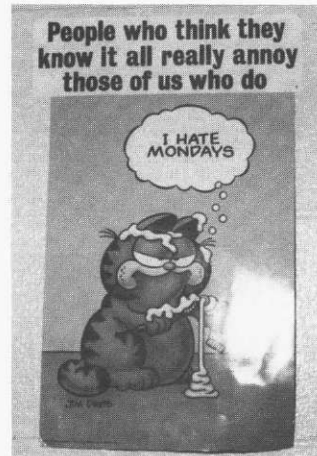

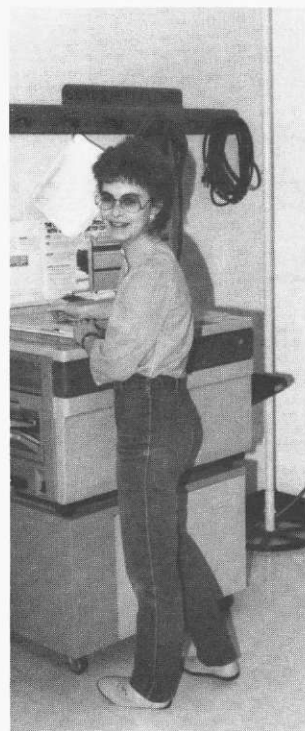

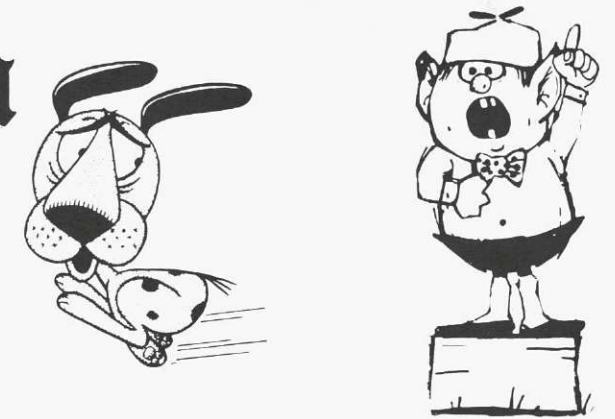

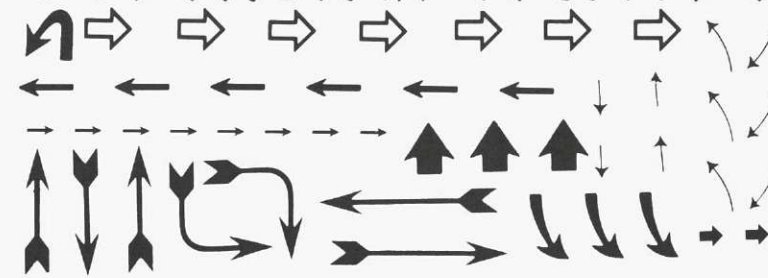

Sincerely

F. G. Tredegar

PRESIDENT'S MESSAGE

Before I wrote this message, I thought I'd look back at the past four years and see what the previous Students' Union Presidents had to contend with. Basically, there have been two problems within our student body; one was the financial status and the other was the lack of school spirit.

This year, I'm glad to say that there were not many problems financially. It was actually a year of re-building which allowed us to strengthen the financial base of our Students' Union. We were able to purchase a stereo for our school bus and donate a substantial amount of money towards a public address system for the gymnasium. We had successful fund-raisers like the selling of sport socks and chocolates, and also a Chicken Supper. There were also many successful school dances with good turnouts.

Yet, there still is a lack of school spirit. This school has the potential to do so much for its student body, but it lacks the support. It was very distressing to see the lack of support for our school teams. You as the student body hold the key to success. Your enthusiasm and support can open the doors to a more successful year next term. Use it!

When you're good, you're bad. When you're bad, you're even worse.

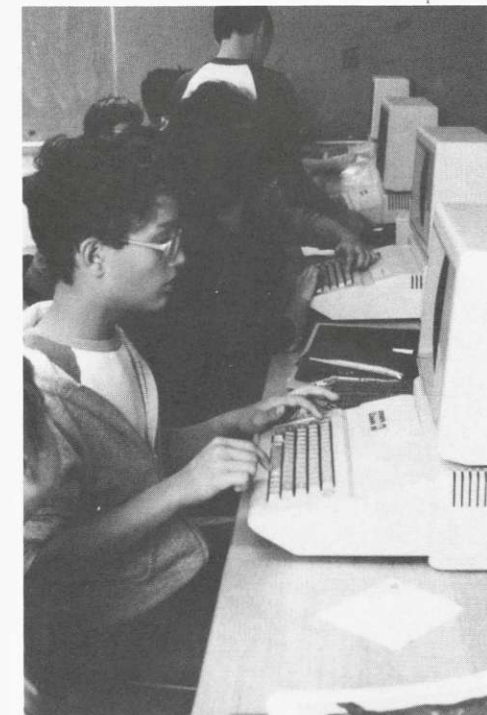

Gossip Rules!!!

God, we're cute.

We'll get by with a little help from our friends.

As a school year ends, you think back on how important your friends have been. They've supported you, influenced the things you've done, and accepted your need to be you and not just one of them. Next year, you'll meet some new friends, acquire new

skills and take on new challenges. Congratulations on your Graduation and your successes so far. Make the most of a good thing. Make the most of you.

On the edge of a dream...

We, the Graduating Class of 1985 are standing "on the Edge of a Dream". one, that is about to become a reality. Twelve years ago, when we first started school we only dreamed of this day. It has taken two thirds of our lifetime thus far to live our first dream. The memories of this day will be cherished forever.

As we continue into the future, we will have many dreams that will be fulfilled. The challenges, struggles and achievements will take us from the edge of the dream and make it a reality. From this day on, we will make all our problems into opportunities.

Today, we have reached a milestone in our lives. We would like to share our mixed emotions of happiness, pride and sadness with you, the people whom we have invited here today. You have helped us step off the Edge of Our Dreams and we would like to thank you for your support. It adds to our memories to share this day with you.

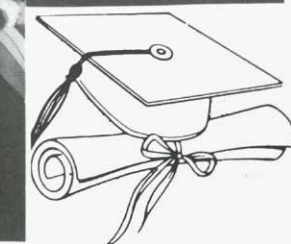

Parents - It is you who have guided us through these last 18 years. It has been your compassion and wisdom that has brought us here today. Our success, is really yours. We are indebted to you, Mom and Dad, and will be forever grateful for your time, guidance, and encouragement.

Teachers - It has been your determination and patience that have not only taught us facts and figures, but also respect, insight, cooperation, and the responsibility needed to continue into the future. You have laughed with us even when you were the center of our cruel jokes, yet gave your time to prepare us for our adventure into society. We will remember you for your understanding and dedication.

Friends - Thank you for accepting us as we were. You helped us make decisions, both major and minor, and pulled us through hard times. Let's make a promise to ourselves to always remain friends, regardless of unforeseen barriers which attempt to keep us apart.

To all of you, we say Thank You with all the love in our hearts. Without you, we'd still be on the Edge of this Dream. We can now dream another dream and make it come alive.

I want to congratulate my fellow grads. Please continue to dream. From dreams come realities. Search for your happiness and success, but keep your expectations in perspective. If you can imagine it, you can achieve it, if you can dream it, you can become it. Stand on the edge of your dreams.

Congratulations Graduates

ORCHESTRA

As written by the Yearbook Staff:

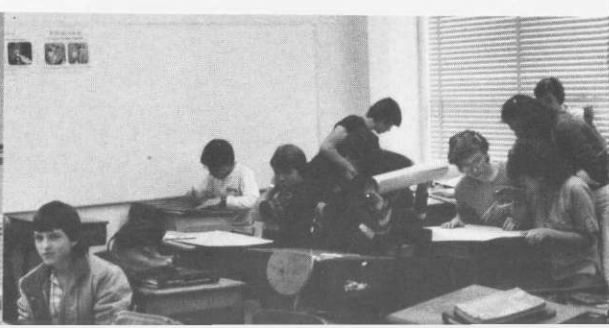

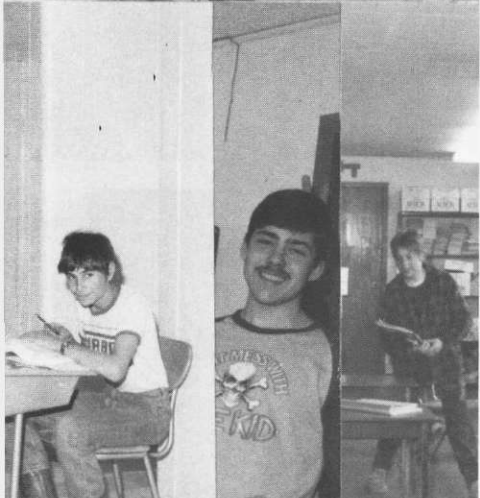

This year was one that seemed to drag on forever, but as promised, "against all odds", we've completed the yearbook and "if it's good enough for you, it's good enough for [us]." We really tried, and "would [we] lie to you"? "you're a strange animal" if you don't like this, because we honestly did our best. Of course, if you really don't like it, "shout, shout, let it all out" and you can help out on the yearbook staff next year because "we're not gonna take it". Nevertheless, have fun 'cause "it's the summertime". And remember,

"if we could pull together
We could change the world forever.
Don't you know that tears are not enough."

Year in Review 1984-85

This was the year when the Oilers won the Stanley Cup for the second year in a row...they played the Flyers for it... This was the year when Indira Ghandi was assassinated. This was the year when Lady Di had her second child...Prince Henry. Gas cost about \$0.40 per litre and the average designer jean sold for \$40.00. Brian Mulroney won the election and became Prime Minister of Canada. Mila was pregnant with her fourth. Reagan got another face-lift. Steve Fonyo continued Terry Fox's Journey for Lives and successfully completed Terry's dream raising millions of dollars for cancer research. This was the year when millions watched Pope John Paul II as he toured our country. Bruce Springstein tied the knot to the dismay of countless females throughout America. A loaf of bread cost about \$0.89. The Grade 12's had to write departmental exams for the second year in a row. Our teachers didn't go on strike, postal workers, nurses, brewery workers, British miners did, and farmers should have. Britain's soccer fans went on a rampage and killed many of their own people...the survivors are now banned from attending future games. Winnipeg Blue Bombers won the Grey Cup. Bobby Ewing (Patrick Duffy) was killed on the Soap "Dallas". He asked for too much money. Ethipia is starving...Northern Lights, U.S.A. for Africa, Band Aid, and our own students all worked toward a common goal...that of raising money for desperately needed relief. Austrailia killed several million kangaroos for something to do. A brilliant company, the Quebec Hydo-Electric company opened their dams during spring flooding and drowned 100,000 caribou. The average tractor cost \$100,000.00. The average cow sold for \$00,25 per pound. Cafeteria food is improving...or we're developing an immunity. Our water guns are banned.....This was the year...
